

Open Up

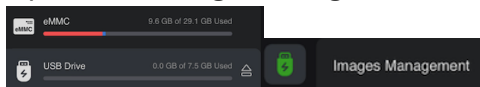

1. Open the Observatory with the key found in the lock box. Put the key back in the lock box.
2. Sign-in in the **logbook**.
3. Unhitch the **roof hold-down latches**.
4. Slide the **roof open**.
5. Remove the **bungee cord** and **plastic cover**.
6. Remove the telescope **dust cover**.

Power Up and Get Ready (Important: make sure the roof is now open!)

7. Power up the mount (wall and mount switch) and the ASiAir device (switch).
8. Plug your USB drive into the ASiAir device.
9. Use the handheld controller to **Align the Mount**. Power off and then on again (if necessary). When the controller shows **CGE Ready**:
 - a. Press ENTER to go to **CGE Ready / Press Enter to Begin Alignment**.
 - b. Press ENTER to go to **Set Switch Position**.
 - c. The Telescope will move. Wait until it stops.
 - d. Press Enter. Enter the **time (24-hour format), EST or EDT**, Easter Time Zone, **Current Date**. Press Enter each time to go to the next option.
 - e. Press the [#9 Down] key to scroll down to **Select Alignment/Last Alignment**. Press Enter. (You do not have to align the mount to a target star.)

Connect

10. If necessary, connect to the ASiAir device using your phone or tablet's Wi-Fi settings. Use the password "12345678".
11. Open the ASiAir app  and proceed through to the Main Screen.
12. Open the Storage settings . Click and choose your USB Drive and not eMMC.

Take Images

13. CHOOSE AN OBJECT
 - a. Click on the "Big Dipper" icon  to choose an object to image.
 - b. Choose an object to image. If necessary, use your finger to adjust the view.
 - c. Wait for ASiAir to plate solve and find your object.
 - d. Return to the previous screen.
14. SET A GUIDE STAR
 - a. Click on the graph  in the top left to set a guide star.
 - b. Click refresh  and then the "target" button .
 - c. ASiAir will find a guide star.
 - d. Wait for the graph at the bottom to track and show low numbers.
 - e. If the guide scope is not tracking (high numbers), repeat from step b.
 - f. Return to the previous screen.

FAS Observatory Checklist
